

Dear Sir/Madam,

We are very pleased to announce the **Online Spring School** to be held at **Tokushima University** from **March 7-17, 2022**. The Spring School event is organized by **Center for International Research and Educational Cooperation (CIREC)** at Tokushima University. The aim of Spring School is to educate the graduate students with deep Advanced Engineering. The Spring school program will include Online Panel discussion, Group Discussion, Virtual Field Trips, and Online Laboratory Visits, Virtual Campus Tour, and Online Lectures delivered by leading researchers in the field of Advanced Engineering.

Applications are invited from the engineering graduate students from all our partner universities. You are kindly requested to encourage the interested student to apply for spring school. **Kindly note that no registration fee is required, however, the number of students from one institute will be limited.**

Please find poster and schedule for more details. If you need any further information then please contact us. Kindly see the link below to access the online application form page
