

International Affiliated Double-Degree Program Summer School

The Center for International Cooperation in Engineering Education (CICEE), The University of Tokushima is pleased to announce that we will be hosting a summer school program for graduate students in engineering studying at our partner and our own institutions. The program consists of the following three courses available in the International Affiliated Double-Degree Program: Nano-technology Engineering Course, Bio-information Engineering Course, and Environment Control Engineering Course; and students can take one of these three courses. All courses are offered in English by faculty members from not only The University of Tokushima but also our partner institutions in China and Korea.

Period: From Thu., August 2 to Wed., August 8, 2007

Place: Lecture rooms in The University of Tokushima

Sponsored by the Center for International Cooperation in Engineering Education, Graduate School of Advanced Technology and Science, The University of Tokushima

See the time schedule of each course:

Nano-technology Engineering Course

Bio-information Engineering Course

Environment Control Engineering Course

Note:

Each course has a different time schedule. In addition to the hours devoted to lectures/labs, there are opening and closing ceremonies: the opening ceremony is to be held in the late afternoon of Thu. Aug. 2 and; the closing ceremony will take place in the early afternoon of Wed. Aug. 8.
